

FACT SHEET

Information on the Web

For more information on the issues you have discussed and heard about during the past few days, you can check out these websites.

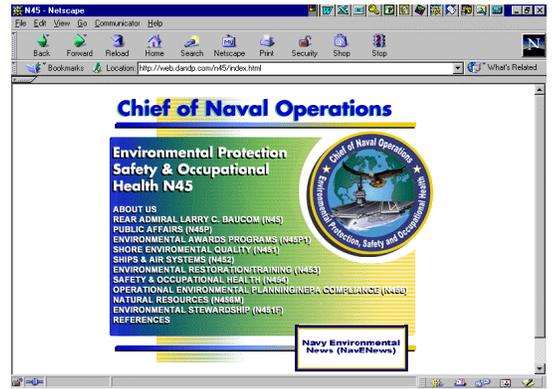

CHIEF OF NAVAL OPERATIONS, ENVIRONMENTAL PROTECTION, SAFETY AND OCCUPATIONAL HEALTH (N45)

<http://web.dandp.com/n45/index.html>

INSTALLATION RESTORATION AND ENVIRONMENTAL TRAINING (N453)

<http://web.dandp.com/n45/n453/index.html>

- The purpose of the Environmental Restoration Program is to identify, study, and clean up hazardous waste disposal sites on Navy and Marine Corps installations within the U.S. and its territories.
- The purpose of the Environmental Training Program is to enhance operational readiness by ensuring accurate, responsive training is available at all levels. Such training is meant to preserve safe and healthful workplaces, while protecting and restoring the environment.

NAVAL FACILITIES ENGINEERING COMMAND

<http://www.navfac.navy.mil/>

- NAVFAC manages the planning, design and construction of shore facilities for Navy activities around the world by providing the operating, support, and training bases needed when at home.

FIVE YEAR PLAN

<http://5yrplan.nfesc.navy.mil/>

This website contains information on the Five Year Plan, the Navy's comprehensive look at the Environmental Restoration Program.

MARINE CORPS ENVIRONMENTAL MANAGEMENT SECTION

<http://www.hqmc.usmc.mil/I&L/LFL%20Environment%20Web%202000.nsf>

- The mission of the Environmental Management Section is to plan, develop, and manage forward-looking environmental programs for the U.S. Marine Corps; and to enhance operational readiness through efficient, publicly responsive and technologically advanced environmental training and education, pollution prevention, conservation, compliance, and cleanup programs.

U.S. MARINE CORPS ENVIRONMENTAL AWARENESS GUIDE

<https://denix.cecer.army.mil/denix/Public/News/Marines/EnvGuide/marines.html>

- Marine Corps environmental programs contribute significantly to our public health and safety goals, quality of life standards, and efforts to be an outstanding neighbor to our surrounding communities. The Marine Corps considers money spent now on environmental programs a sound investment in the future. Current compliance, pollution prevention activities, and cleanup will yield significant cost savings in the long term and will correct deficiencies before they become serious problems or result in criminal and/or civil penalties.
